Fire levels unoccupied home in Granby

GRANBY - An early-morning structure fire destroyed an unoccupied home off Route 202 Saturday and closed the roadway for around two hours while firefighters battled the blaze, officials said.

Responding police and fire officials arrived shortly after 2 a.m. to find a home at 423R East State St. engulfed in flames. By the time the fire was extinguished around 4 a.m., "the structure was a total loss," said a Granby Police press release.

The fire's origin is unknown and is being investigated, officials said.
